

## **Our Remuneration – General Insurance**

***First Ireland Risk Management Ltd act as intermediary (Broker) between you, the consumer, and the product provider with whom we place your business.***

### **The Background**

Pursuant to provision 4.58A of the Central Bank of Ireland's September 2019 Addendum to the Consumer Protection Code, all intermediaries, must make available in their public offices, or on their website, a summary of the details of all arrangements for any fee, commission, other reward or remuneration provided to the intermediary which it has agreed with its product producers.

### **What is Remuneration?**

Remuneration is the payment earned by the intermediary for work undertaken on behalf of both the provider and the consumer. The amount of remuneration is generally directly related to the premium or value of the products sold.

### **What is Commission?**

Commission is payment that may be earned by an intermediary for work undertaken for both provider and consumer.

There are different types of remuneration and different commission models:

**Single Commission Model:** Where payment is made to the intermediary shortly after the transaction is completed and is based on a percentage of the premium paid/amount invested/amount borrowed.

**Indemnity Commission:** Indemnity commission is the term used to describe a commission payment made before the commission is deemed to be 'earned'. Indemnity commission may be subject to a clawback (see below) if the consumer lapses or cancels the product before the commission is deemed to be earned.

### **General Insurance Products**

General insurance products, such as motor, home, travel, health, retail or liability insurance, are typically subject to a single commission model, based on the amount of premium charged for the insurance product.

### **Profit Share Arrangements**

In some cases, the intermediary may be a party to a profit-share arrangement with a product provider and will earn additional commission. Any business arranged with these product providers on a client's behalf will be placed with the product provider because that product provider is at the time of placement, the most suitable to meet the client's requirements, taking all the client's relevant information, demands and needs into account.

### **Other Special Arrangements**

From time to time First Ireland may offer discounts to their clients. At present we have an arrangement with Patrona Underwriting Ltd which allows us to offer a year one discount to clients or a renewal retention discount. This is provided for by funds made available by Patrona, Limits are applied.

## Clawback

Clawback is an obligation on the intermediary to repay unearned commission. Commission can be paid directly after a transaction is concluded but is not deemed to be 'earned' until after a specified period of time. If the consumer cancels or withdraws from the financial product within the specified time, the intermediary must return commission to the product producer.

## Other Fees, Administrative Costs/ Non-Monetary Benefits

The firm may also be in receipt of other fees, administrative costs, or non-monetary benefits such as:

- Attendance at product provider seminars
- Assistance with Advertising/Branding
- Attendance at product provider seminars
- Industry Educational Seminars
- Use of Product Providers resources
- Co-branded literature
- Product Provider hospitality
- Assistance with Advertising/Branding

## Commission Arrangements

The enclosed commission guidance section gives indicative values across every product provider and every product advised whereby a commission is received within our business. This is the maximum our Brokerage may receive and is subject to change. We may receive a lower remuneration than the enclosed percentages/amounts.
